01 Safety Precautions

When using the massage chair, basic precautions should always be followed to reduce the risk of electric shock, burns, fire or injury to persons. Please read the following precautions before using the massage chair.

- Make sure the power plug is securely inserted into a proper electrical outlet to reduce the risk of short-circuit and fire.
- Make sure the power plug is securely inserted into a proper electrical outlet to reduce the risk of short-circuit and fire.
- DO NOT use the massage chair n areas where the humidity is high such as a sauna or steam room, Pools, bathrooms, AC or heating vents, etc.
- DO NOT use the massage chair outdoors and avoid areas with direct sunlight.
- If the electricity is off, turn the power switch to the OFF position and unplug the massage chair from the electrical outlet to prevent any damages to the chair when the electricity comes back on.
- Never plug/unplug the power cord plug socket with wet hands.
- Close and continuous supervision is necessary when the massage chair is used by, on or near children or disabled persons.
- No more than one person should use the massage chair at the same time.
- The massage chair is intended for use as described in the Instruction Manual. Do not use any attachments other than those recommended by the manufacturer.
- DO NOT attempt to stand or sit on the backrest, armrest or footrest in order to prevent accident, injury or damage to the chair.
- Avoid falling asleep while using the massage chair.
- Always keep the massage chair clean, and never insert any objects into or around the gaps of the massage chair.
- DO NOT move the massage chair by pulling on the power supply cord.
- Make sure there are no children, pets or other obstacles behind or underneath the massage chair.
- If you find any rips or tears in the fabric of the massage chair contact the service department and stop using the chair immediately. Environment (such as in the bathroom or shower room or swimming pool).
• This massage chair is designed for household use and should not be used in non-residential settings.
• Please consult your doctor if you are in doubt as to whether or not you should use this massage chair.
• Please consult a doctor before using the massage chair if you are pregnant, undergoing any medical treatment, using a medical electronic device such as a pacemaker, or are experiencing any of the following: Malignant tumor, heart disease, back pain, abnormal or curved back bone, osteoporosis or acute illness.
• If you experience pain while using the massage chair, stop using the chair immediately and consult your doctor.
• Never use a massage function on swollen or inflamed parts of the body.
• DO NOT use the massage chair for more than 30 minutes at a time.
• DO NOT use the massage chair where aerosol(spray) products are being used or where oxygen is being administered.
• This massage chair is a non-professional product designed to provide a comfortable massage and should not be substituted for appropriate medical treatment.
• Never operate the appliance with the air openings blocked. Keep the air openings free of lint, hair, and the like.
• Temperatures sufficiently high to cause burns may occur regardless of the control setting. Do not use on an invalid or on a sleeping or unconscious person. Check the skin in contact with the heated area of the appliance frequently to reduce the risk of blistering. If the heating pad malfunctions and extreme heat is produced it may cause serious burns.
• Burns may result from improper use. If this is the case immediately shut off the chair and unplug from the outlet.
• Do not crush—avoid sharp folds. Remove all sharp objects from the body and pockets such as keys and Pens.
• Keep children away from extended foot support (or other similar parts.)
• DO NOT WET—DO NOT USE PINS.
• NEVER REMOVE COVER.

03 Chair Installation & Moving

Ensure sufficient spaces around massage chair, please leave 15” of spaces behind the backrest and 10” of spaces at the front of massage chair.

Step 1:
Remove the chair out of the carton.

Step 2:
Connect the wire plug and then connect to the power supply. Turn the switch to “I” position.
The massage chair will return to the original position.
Note: The back pad is installed with an additional pad to soften the massage. If you desire a stronger massage simply remove the extra pad and proceed to zippering the pad to the top of the backrest.

Moving the chair:
Lift up the footrest then recline the chair to approximate 45° to easily move the chair around the house with a slight pull or push.

Caution!
1. Before moving the chair, please put the foot rest back into the original position. Otherwise, injuries might occur in the process of moving.
2. Avoid moving the massage chair when there is someone seated on it.
3. Placing a mat underneath the massage chair is advisable, as the moving process might leave scratches on the floor surface.
4. Use a mat or rug to place under the chair when on hard surfaces like hardwood and tile. This will reduce the sound when operating the chair.
This product must be grounded. If it should malfunction or break down, grounding provides a path of least resistance for the electric current to reduce the risk of electric shock. This product is equipped with a cord with an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

Danger—Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service technician if the product will not fit the outlet, have a proper outlet installed by a qualified electrician.

This product is for use on a nominal 120V circuit and has grounding plug that looks like that plug illustrated below. Make sure that the product is connected to an outlet having the same configuration as the plug. No adapter should be used with this product.

07 Operation Guide

How to Start
1. Connect the power plug to the power supply.
2. Turn the switch on at the back of the chair.
3. Massage chair will be in idle mode until the functions below are activated:
   - Power
   - Pause
   - Footrest extension
   - Recline (includes backrest and footrest)

Function Description
1. Power
   - Starts and stops all functions of the massage chair.
   - Press once. Remote control will light up and chair will be in idle mode.
   - You can press any massage function buttons to begin your massage session, at a default time of 15 minutes.
   - Press again, all functions will stop and massage rollers will return to original position.

2. Timer
   - Controls the duration of the massage session.
   - The default time for all massage functions is 15 minutes.
   - Press each time to change the duration for 20, 25, 30, 05,10 or 15 minutes.

3. Pause
   - All massage functions will stop temporarily.
   - Press once and the Pause icon will light up.
   - Massage functions and timer will be stopped temporarily.
   - Press again to resume the massage session.

Auto Programs
- This function is a full body massage with 4 different massage styles.
- Position of the chair can be manually adjusted.
- Massage session is 15 minutes by default.
4. Deep Tissue
   • Engages the full body deep tissue massage. This program focuses on neck, shoulder, waist and hip.
   • Relief of a day’s work pressure.

5. Body Stretch
   • Engages the full body stretching auto program. This program stretches the back muscles, hands, hamstrings and the full body.
   • Use this program after a workout to relax sore muscles.

6. Calm
   • Engages the Calm Auto Program.
   • This is a gentle massage mode, relieves body pain.
   • Relieves body aches and suitable for the elderly.

7. Full Air
   • Engages the the full body air pressure auto program.
   • This program applies full body air pressure massage to shoulder, arm, palm, lower back, buttocks, thighs, calves and feet.
   • Full Air intensity can be adjusted by pressing “Intensity” button respectively after activating full air function.

8. Calves Air
   • Engages the calves and footrest air pressure auto program.
   • Calves Air intensity can be adjusted by pressing “Intensity” button respectively after activating calves air function.

9. Armrest Air
   • Engages the armrest and shoulder auto program.
   • Armrest Air intensity can be adjusted by pressing “Intensity” button respectively after activating armrest air function.

10/11. ↓/▶ Width
   • Controls the width of the rollers.
   • Select a massage function and press to adjust between Narrow, Normal and Wide.
   • It can be used to activate the Tapping, Shiatsu and Rolling massage.
12/13. ▲/▼Position
• Adjust back massage position.
• Press ▲ or ▼ to choose position of massage rollers when a “beep” sound alerts in 10 seconds.
• Release the button once the desired position is achieved.
Note: This can also be used during sector massages.

14. Vibration
• Press this button once to activate the seat vibration function. Press the button again to stop the seat vibration function.
• The vibration mode can be switched on or off while any of the programs are running.

15. Heat
• Heat function is set to OFF by default.
• Press this button once to activate the waist heating function. Press the button again to stop the waist heating function.
• It is applicable during any Automatic Program, Localised Area Program or Manual Program.

16. Spot/Partial (S/P)
• Press once to localize the massage to a particular point.
• Press again to shift massage to a particular area of body.
• This will keep the original massage node working on a range of 8cm.
• To resume full back massage, press button again.

17. Intensity
• Press this button to adjust kneading speed.
• After activating the Kneading function, every time the button is pressed, the speed can be adjusted in the cycle.

18. Speed
• Press this button to adjust speed for Tapping, Shiatsu modes.
• After activating the Tapping or Shiatsu function, every time the button is pressed, the speed can be adjusted in the cycle.
19. Relax Position
• Adjust the angle of the massage chair to a comfortable position.
• Press to achieve position required.
• Press again to resume to original position.

20. Foot Roller (Roller)
• Press once, to activate the foot roller massage.
• Press again, to stop the foot roller massage.

21/22. Footrest lift / drop
• Allows you to lift or drop the footrest.
• Press once and the footrest will start to lift/drop.
• Press again to stop the footrest at your preferred angle.

23/24. Recline / Incline
• Control the recline / incline angle of the chair.
• Press once and the backrest will move to a horizontal reclining position or an upright sitting position.
• Press again to stop at your preferred angle.

25. Kneading
• Press this button once to activate the kneading function for a full back massage. Press again to stop the kneading function.
• Kneading function strength can be adjusted by pressing “Intensity” button after activating kneading function.
• Kneading function can be combined with tapping or shiatsu.

26. Tapping
• Press this button once to activate the tapping function for a continuous full back massage. Press again to stop the tapping function.
• Tapping width and speed can be adjusted by pressing “Width” and “Speed” button respectively after activating tapping function.
• Tapping function can be combined with kneading function.
27. Shiatsu
• Press this button once to activate the shiatsu function for a continuous full back massage. Press again to stop the shiatsu function.
• Shiatsu width and speed can be adjusted by pressing “Width” and “Speed” button respectively after activating shiatsu function.
• Shiatsu function can be combined with kneading function.

28. Rolling
• Press this button once to activate the rolling function for a full back massage. Press again to stop the rolling function.
• Rolling width can be adjusted by pressing “Width” button after activating rolling function.

How to End
• Press the Power button to stop the massage operation.
• Massage rollers will reset automatically.
• The Power button will light up until the massage rollers resume their original position.
• After the Power button light turns off, switch the power button under the chair to “O” position and disconnect the power cord plug.
## Troubleshooting

This page summarizes the most common problems you could encounter with the product. If you are unable to solve the problem with the information below, contact service center immediately.

If the problem encountered is not listed, please try the following suggestions:

1. Turn off the product and unplug it.
2. Wait for 60 minutes.
3. Plug the product back to the mains and restart.
4. If the problem persists, contact the authorized service center.

09 Care & Maintenance

Cleaning
Never use scouring pads, abrasive cleaning agents or aggressive liquids such as petrol or acetone to clean the appliance. When wiping down the chair use non toxic cleaners and be sure the cloth is moist and NOT wet. Do not immerse to appliance in water.

1. Remove the main plug from the wall socket.
2. Clean the control panel and cords with a dry cloth.
3. Do not use a moist cloth or a cleaning agent.

Storing
1. Disconnect the product from the power source after use.
2. Keep the massage chair away from direct sunlight, high temperature or high humidity.
3. Do not put heavy objects on the product.

If the outer cover is torn or the mechanism is damaged, stop using the appliance and get advice from the service center.
If you have any questions with your massage chair, please do not hesitate to contact the service center.
